

How will I know?

Choose the Gold Standard of Care

Several published studies support the fact that patients who receive hospice care live longer, and with better quality of life, than those who receive standard care. Considered the gold standard of end-of-life care, choosing Hospice ensures the most comfort and best quality of life for both patients and families. Hospice is a Medicare, Medicaid, VA, private insurance, MLTC and HMO covered benefit.

Just one call to Niagara Hospice provides:

- Physicians, Pharmacists
- Nurses, Social Workers
- Aides & Homemakers
- Volunteers
- Spiritual Care
- Massage & Music Therapy
- Caregiver Support
- Oxygen
- Home Medical Equipment
- Bereavement Care

You may ask: How will I know I can't do this alone anymore? How will I know my caregiver needs help? How will I know it's time to call Hospice?

Do you know someone who:

- needs help bathing, dressing, toileting, getting out of bed or eating?
- has unintentionally lost weight in the last 6 months?
- has fallen 3 or more times over the past 6 months?
- is often short of breath?
- has open wounds that won't heal or a history of infections?
- has started taking medications to lessen pain?

If you can answer "Yes" to three or more of the above questions, this person may benefit from the many services Niagara Hospice provides.

Anyone can call Niagara Hospice to make a referral or to simply get more information.

"It's been two years and not a day passes that I do not thank God for the care my husband received while under hospice care in our home. When we learned that David would be placed in hospice care, we had no idea what to expect. Days turned into weeks and weeks into months, yet not a day passed that we didn't feel the love, care and support from our hospice team! We didn't have to go through this alone."

Don't wait. Ask us.
